FREIGHTLINER

THE LEADER AT EVERY TURN™

POWERLINER CHASSIS III

HOW POWERLINER GIVES YOU MORE

More Carrying Capacity

With Gross Vehicle Weight Ratings between 44,600 and 48,660 lbs., Powerliner carries the most luxurious motorhomes with all the amenities.

More Power

A 10.8L ISM Cummins® Engine with 500 hp and 1,550 lb.-ft. of torque provides the power for superior acceleration, handling the steepest inclines and towing vehicles with ease.

More Maneuverability

ZF™ Independent with 60-degree* wheel cut handles the sharpest turns and toughest terrains.

More Service Locations

Freightliner outdistances the competition with more than 400 service locations throughout the U.S. and Canada. Many of these are Oasis Service Centers, specializing in motorhome care.

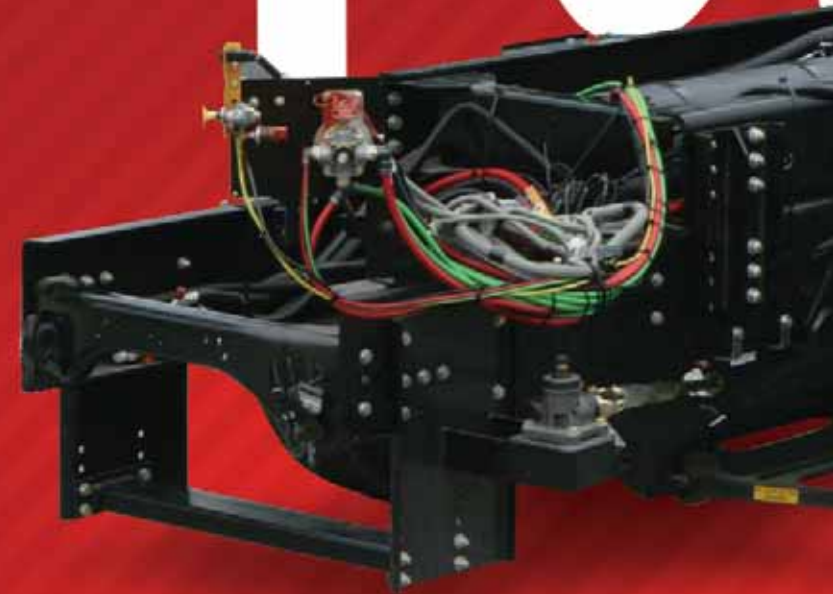

More Experience

With more than 65 years in the diesel industry and a heritage of Freightliner and DaimlerChrysler expertise, Freightliner Custom Chassis is the superior choice for diesel motorhome chassis.

The ultimate in motorhome chassis luxury experience begins at its foundation—with a smooth, quiet, solid ride and all the power you need.

*56-degree wheelcut on 16,000-lb. front suspension

POV

POWERLINER GIVES YOU MORE

Cummins ISM Engine

Powerful, durable and economical, this proven engine produces 500 hp and 1,550 lb.-ft. of torque for an excellent balance of low-end acceleration and high-end power at lower rpms.

Rear Axle & Suspension

A Meritor rear axle with Ingersoll® drop-center tag axle provides increased carrying capacity as well as best-in-class ride and handling.

Auto-load Sensor

This industry-first “automatic load proportioning” system automatically allocates weight distribution across all three axles to provide occupants with a smoother, more comfortable ride.

Longer Floor Plans

The tag axle chassis accommodates the longest floor plans, so manufacturers can build bigger RVs with more space for customers.

Front Suspension

The ZF™ Independent Front Suspension with 60-degree wheel cut increases maneuverability and provides a tighter turning radius, excellent stability and improved steering.

Bendix® Air Disc Brakes with ABS

Standard air disc brakes have been shown to dramatically decrease stopping distances under normal and emergency conditions as well as minimize brake fade when multiple brake applications are required.

Smart Wheel

The most advanced steering wheel on the road comes standard with leather wrap and provides many of the most commonly used controls on the steering wheel itself, within easy reach of the driver.

Coolant

Five-year, 100,000-mile, pre-charged with SCAs.
